July 01 – 05, 2026 | Hybrid Mode | IIT(ISM) Dhanbad

About the Program

An international hybrid workshop and summer school exploring the intersection of physics-based simulation and data-driven methods, organized by the Department of Mechanical Engineering. This five-day event provides a structured platform to master the growing role of data-driven approaches in mechanical engineering. Through a blend of expert-led lectures, tutorial sessions, and hands-on components, participants will explore the mathematical, computational, and practical applications of modern modeling tools.

Focus Areas

- ◆ Computational fluid dynamics (CFD)
- ◆ Computational mechanics
- ◆ Digital twins
- ◆ High-fidelity simulations
- ◆ Reduced-order modeling
- ◆ Robotics
- ◆ Scientific machine learning

Who should attend?

This hybrid event welcomes ~100 national delegates (in-person) and international delegates (online), including: Students & Research Scholars, Post-Doctoral Fellows, Faculty Members, and Industry Professionals.

Ideal for those interested in the analysis, design, prediction, monitoring, and control of mechanical systems.

Organizers

Prof. Suparno
Bhattacharyya

Prof. Aditi
Sengupta

Prof. Omkar
Mypati

Register Now

Sanjeev Kumar: +91 75032 26970
Venkat Chelle: +91 832 8581461

Speakers

Keynote Address

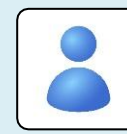

Dr. Chris Rackauckas
(Massachusetts Institute
of Technology)

Prof. Romit Maulik
(Purdue University)

Prof. Giovanni
Stabile
(Sant'Anna School of
Advanced Studies)

Prof. Francesco
Ballarin
(Università Cattolica
del Sacro Cuore)

Prof. Souvik
Chakraborty
(IIT Delhi)

Prof. Rajesh Ranjan
(IIT Kanpur)

Mr. Chandra Bhushan
(TSMD Kharagpur)

COMSOL

Prof. Suparno
Bhattacharyya

Prof. Aditi
Sengupta

Prof. Omkar
Mypati

Important Dates

- ◆ Early Bird Registration Starts: **20th April, 2026**
- ◆ Early Bird Registration Ends: **31st May, 2026**
- ◆ Last date for Registration and poster submission: **15th June, 2026**
